THE TALENT SHOW

The PTA sponsored Talent Show was a huge success! Students showcased talents including singing, dancing, comedy, karate, and more...Thank you to the PTA for this great event at Hamburg School.

In Memory

Tommy Bock

#72

On May 16, eight students participated in the TransOptions Junior Solar Sprint Race at Kittatinny Regional High School. Hamburg students won in the following categories:

3rd Place-Student Choice-Luke Owens, Aimee Wunej, Vanessa Hasbrouck (Mario Kart car)

3rd Place-Craftsmanship-Natalie Armstrong and Brianna Brown-(Sunset Boulevard car)

1st Place-Craftsmanship-Hannah Douglas, Paige Cocchio, Brianna Friedman (The Party Plane)

The Hamburg School Environmental Club recently visited the nearby Wallkill River National Wildlife Refuge to explore wildlife habitat and

do some birdwatching. Students used binoculars to get a good look at a small painted turtle on a log and an osprey fishing in the water. Club members discovered deer tracks in the dried mud while we were on our hike.

Grade 3 students enjoyed a trip to a Sussex County Miners game as the reward for achieving their Reading Challenge goal.

Mrs. Lillis and Mrs. Cullen's First Grade Students were inspired by a presentation given by Giselle from The Avian Wildlife Center. The inspiration came when students were able to observe real birds, learn about their rehabilitation stories, and get ideas about ways they can make their yards a better habitat for wild birds. The students met a blue bird, blue jay, and a screech owl that are residents of the center because they sustained injuries that prevent them from being released into the wild. Many thoughtful

questions were asked by the students and they were very excited to share their prior knowledge of birds. Thank you to the PTA who sponsored this event!

The cafeteria will not allow students to charge lunch or breakfast during the month of June. Also, all accounts with a balance owed must be paid in full by the last day of school or the student's report card will be withheld.

Big thanks to the Kiester Family for visiting and teaching us how to make pizza. It connected to our Topics 12 & 13 math units on measurement and sorting/classifying/counting and categorizing! Plus it was just tons of fun!

Hamburg Track

The Hamburg Track Team had an outstanding season. Twenty students in grades five through eight joined the team this year. We competed in five regular meets, and ten of our students went on to compete in the County Meet. Many of our runners placed in our meets either individually or as part of a relay team. Each athlete improved his or her personal record by the end of the season. All of our runners worked hard, showed excellent sportsmanship, and demonstrated true team spirit.

Grade 5

EGG DROP

Have a great

Summer
Vacation!

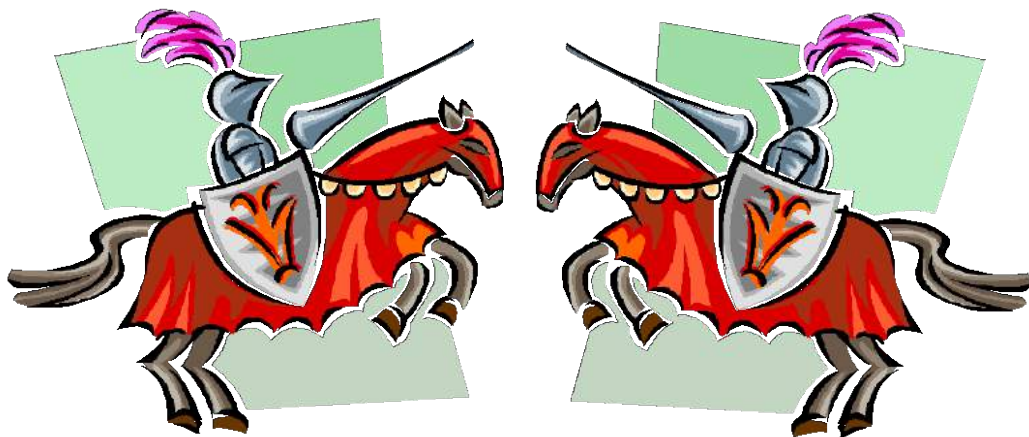

Thank you to Mr. Jeremy Willis (Technology Education teacher at Warren Hills Regional High School and past student of Hamburg School) for sharing his expertise with our students. The children were charged with creating catapults, designing buildings to withstand weight and were exposed to STEM lab materials, including a 3D printer.

Hooray
for
Field Trips

Grade 4 Salad Party

Spring Concert

FIESTA

Grade 3

The third graders have been learning about the Mexico and the Mexican culture. They have researched the land, people, food, holidays, games, animals, map, flag, pinatas, and places to visit. To showcase what they have learned, the students had a Mexican fiesta where they presented their slide shows to parents, teachers and administration.
