The Sussex County Education Partnership is a subcommittee of the Youth Services Commission. Diverse local community stakeholders participate on this committee, including school administration, service providers, the family court team, and county representatives. The goal of the partnership is to work collaboratively with and provide training and resources to Sussex County school districts, in order to more effectively serve the families within our communities. All are welcome to join.

**Local  
Providers  
will have  
resource  
tables  
available**
