Needs

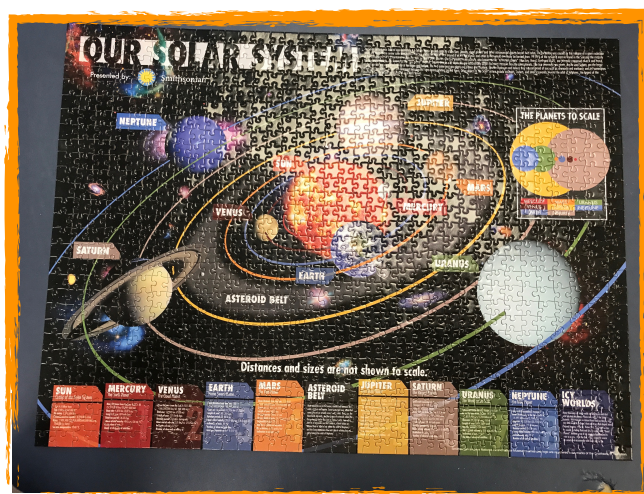

TREP\$ (short for enTREPpreneur\$) is a six week after-school program in which the children in grades 4-8 are taught everything they need to know to start their own businesses. The program ends with a large scale flea-market style event called The TREP\$ Marketplace, giving the new entrepreneurs the opportunity to launch their businesses, selling real products to real customers for real money!

The initial pilot of the program TREP\$ earned NJPTA's President's Champion for Children Award. As the focus of the cover story of the June issue of 'Education Update,' a publication of ASCD (Association for School Curriculum and Development), TREP\$ was recognized as an entrepreneurship education leader. TREP\$ is currently offered in many US States, Canada and Saudi Arabia. In addition one of the schools that piloted the program was actually filmed for an episode of the PBS series Classroom Close-up.

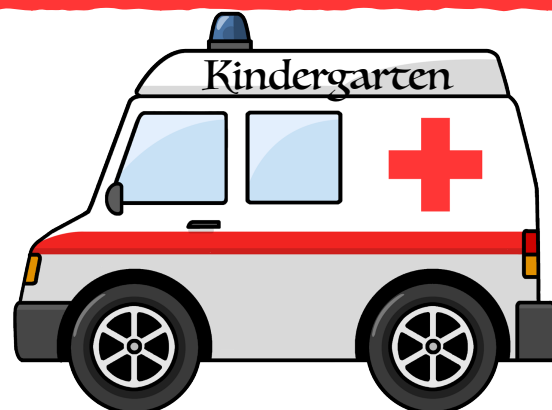

Mrs. Dean's class finished a one thousand piece puzzle on the solar system!!!!

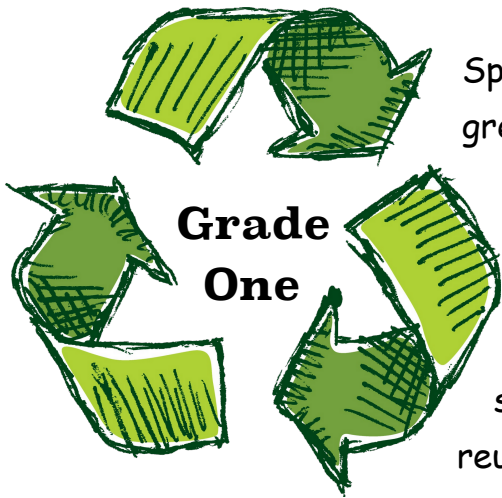

Teddy Bear Clinic

Saint Claire's was on hand to offer a wonderful program to our Kindergarten students. Students were asked to bring their favorite stuffed animal/teddy bear to school for a "check-up". After a brief presentation, the students visited the ambulance. The students also received a coloring book and sticker.

Spring is here and with it the onset of our landscape changing to green and all the colors that come this time of year. The First Graders at Hamburg School learned the history of Earth Day and brainstormed ways to be kind to our earth and preserve our natural resources. They learned the importance of reducing, reusing and recycling in school as well as home. The students also observed ways "recyclable materials" can be reused. To practice this idea, students gathered recycled

materials at home, brought them to school and made projects from those materials. Some of the items they brought were cardboard boxes and rolls, rinsed bottles, coffee cans, plastic containers, yogurt cups, and shoe boxes. They created rockets, drums, cookie booths, a decorative birthday cake, military equipment, dolls, buildings (including The White House), towers and masks. In the process, the First Graders found new uses for recycled materials and plan to make more fun projects in the future.

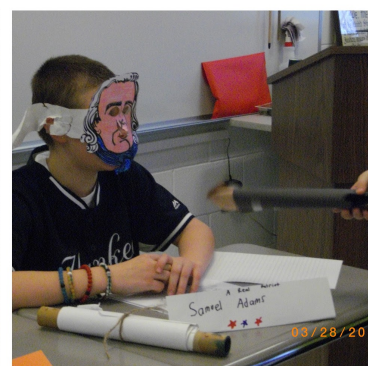

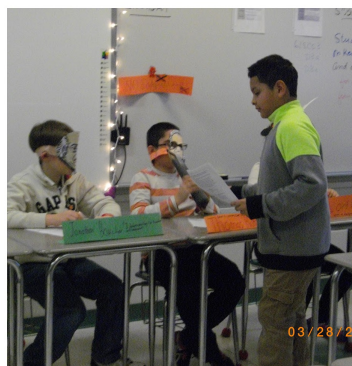

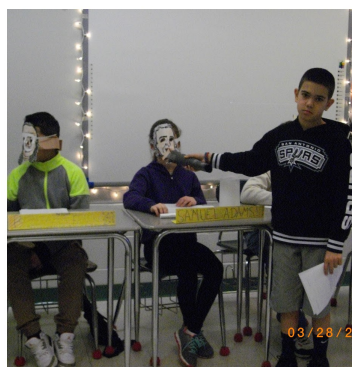

Grade 2

Students took some time from their classrooms to plant bulbs by the playground

Jump Rope for Heart Recap

The Jump Rope For Heart event was for K-8th grade. K-2 participated during gym class. The after school event was for 3rd-8th grade. 45 students raised a total of \$1742.00. The highest student earning money was Sierra Latronica with \$300.

Patriot-Loyalist Debate

Kindness ROCKS

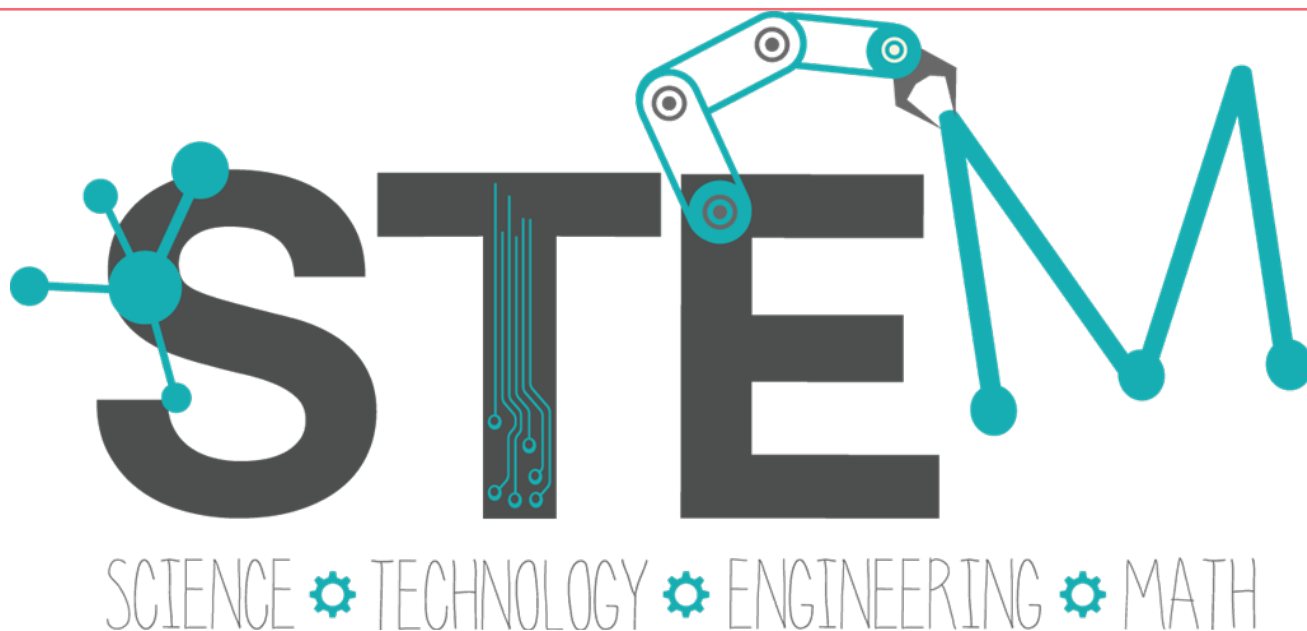

Kindness rocks have been placed around Hamburg School.

The goals of the rocks are:

- ▶ Goal #1: Inspire others through randomly placed rocks along the way...
- ▶ Goal #2: Recruit every person who stumbles upon it to join in the pursuit of inspiring others through random acts of kindness

If you find a rock around the school, please see Mrs. Murphy. You will then show a random act of kindness and then help Mrs. Murphy hide the rock in a new location.

Hamburg School is accepting the following items to support our new STEM/Makerspace classroom:

balloons
balsa wood
batteries
brown paper sandwich bags
building blocks
cardboard
cereal boxes (empty)
construction paper
crayons
egg cartons
glue
hot glue guns
Lego (any kinds)
low melt hot glue
magnets
marbles
marshmallows
masking tape
paper towel rolls
pencils

pipe cleaners
plastic cups
plastic bottle caps
plastic spoons
plastic water bottles
pompoms
popsicle sticks
rubberbands
rulers
scissors
scotch tape
small pool
straws
tape measures
tie wraps
toilet paper rolls
tooth picks
wheels
