

DISTANCE LEARNING SUPPORT

Where Kids Love Learning

The YMCA understands that working from home has its challenges, especially for parents with school-age children who are now learning remotely.

The YMCA's Virtual Distance Learning Support program alleviates this stress on families who are now working from home and providing educational instruction to their children during the day.

The program offers virtual one-on-one support with school assignments for youth in grades K-8. Our qualified child care professionals and staff who have experience working with school-age youth will help your child complete school assignments through one-hour live virtual sessions.

Families can choose the days and times that are convenient for them. Parents will provide information about their expectations, child's personality, and learning style in advance, and be matched with an instructor.

Our instructors will review all subject material ahead of time, so they are fully prepared to help your child succeed in their daily work.

For the most optimal experience

- 1.) Families will need a computer with a camera, micro phone, and speaker
- 2.) Strong internet connection for clear audio and video
- 3.) Communicate with instructor ahead of schedule session
- 4.) Share school material in advance with instructor

How to schedule an appointment

- 1.) Sign up for the program online and select the number of sessions
- 2.) You will receive an email from the instructor within 24 hours to schedule your first session

Use **LearnWithUs2020** coupon code for \$10 off your first session
