### **Annual AHERA (Asbestos Hazard Emergency Response Act) Notification Letter**

Dear Parent, Guardian, or Staff Member of the Hamburg School community:

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which requires schools to follow a careful process of identifying, monitoring and maintaining known or assumed asbestos containing building materials to prevent hazardous conditions. The law further requires an Asbestos Management Plan (AMP) to be in place. The Hamburg School has developed and maintains a plan and related files as required. The purpose of this notification letter is to satisfy the requirements of AHERA for written notice of the availability of the Management Plan for review. Should you desire, please contact the main office for further details.

The Hamburg School has ensured that all required safety procedures are followed and properly documented. The Hamburg School is in full compliance with these requirements and has been conducting AHERA Six-Month Periodic Surveillances and a Three-Year AHERA Re-Inspection was conducted in September 2021. Following each inspection, all findings are documented and entered into the plan by an AHERA accredited Asbestos Building Inspector

Since last written notice, no asbestos abatement efforts were undertaken at any district school. When performed, all abatement activities are completed in accordance with all applicable State and Federal rules, regulations, and guidelines.

It is the intention of the Hamburg School to comply with all federal and state regulations controlling asbestos and to take whatever steps are necessary to ensure students and employees enjoy a healthy and safe environment.

Brian Bobrowski  
Supervisor of Building and Ground Hamburg School
