If applicable, description of steps to be taken to avoid emergency use of pesticides for this problem in the future: N/A

Description of the possible adverse effects of the pesticides as per the Material Safety Data Sheets for the pesticides to be used, if available:

(Pyroicide 100)EYES: May cause temporary irritation, tearing, and blurred vision. SKIN: Can cause skin irritation. Can cause a burning or prickling sensation on more sensitive areas (face, eyes, mouth). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. SKIN ABSORPTION: Harmful if absorbed through the skin. INGESTION: May be harmful if swallowed. Small amounts of this product aspirated into the respiratory system during ingestion or vomiting may cause mild to severe lung injury. INHALATION: Excessive inhalation of mists can cause nasal and respiratory irritation(Conquer) Same as above

**Pesticide product label instructions and precautions related to Public Safety(Pyroicide 100) CAUTION. OSHA-COMBUSTIBLE LIQUID. DO NOT** use or store near heat, sparks, open flame, or any other ignition sources. Harmful if absorbed through the skin. Contains petroleum distillates - Vomiting may cause aspiration pneumonia. Avoid contact with skin, eyes, and clothing. Wear a long-sleeved shirt and long pants, shoes and socks. Wear chemically-impervious gloves such as

Barrier Laminate, Neoprene Rubber, Nitrile Rubber, or Viton. (Conquer) Same as above and avoid breathing vapors or spray. Do not contaminate water or food. Do not eat, smoke, drink or apply cosmetics in work area.

**Note: as required by law, we are advising you of the following statement:**

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated: "Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."

**REMEMBER:** Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4hours or 12 hours; directing a longer or shorter period of time for Restricted Entry. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.
