KEEP THE HEAT ON THIS WINTER WITH LIHEAP

February 1st is National Utility Assistance Day! Over 20 million Americans are behind on their utility bills. That's 1 in 6 people!

LIHEAP is a utility assistance program that helps those in need pay for their utility bills. Family Promise of Sussex County has a utility assistance department that helps applicants apply for this program and get the financial assistance that they need in order to keep their heat on during these cold winter months!

HELPING KEEP SENIORS WARM

Seniors are a group that really struggle during the winter. The majority of seniors are on a fixed income and do not have the ability to raise their income. This dilemma often forces seniors to make the difficult choice between paying for heating bills or essentials such as food and medicine. LIHEAP applications are done online, and some seniors may not have the ability or access to the technology needed to apply. Family Promise of Sussex's LIHEAP is readily available to help seniors apply for LIHEAP.

MCKINNEY VENTO FUNDING AVAILABLE FOR FAMILIES WITH SCHOOL AGE CHILDREN

The McKinney-Vento Act helps protect students who are experiencing homelessness. If a student is living in a motel, sharing housing with others, or if the residence does not have utilities, the McKinney-Vento Act ensures support in providing anything needed for their education. This includes toiletries, clothing, educational and medical resources. This allows students to thrive in their education, even if housing is a struggle. Not only does Family Promise secure housing stability & sustainability for those in crisis, but the agency also had McKinney-Vento funding available to help students in need.
